

and Conservation Efforts

in Numbers...

Habitat Protection

197 million

litres of water pumped for wildlife in 2022 across our 18 wildlife pumps

10 acres

of communal grazing land matted- packed with selected foliage to promote grass growth

10.5 km²

of communal grazing land allocated to a second community rhino sanctuary further south along Hwange's boundary

77 million

litres of water pumped by 5 solar hybrid pumps pumping inside the Park, across an area that stretches across 90km

Wildlife Conservation

2

rhinos relocated to communal land in the Hwange area, where they had not been seen in 20 years

5,375

hours spent by Cobras Community Wildlife Protection scouts guarding two new community rhino

450

school children visiting the rhino and the Cobras scouts to better understand and appreciate the community rhino project

18

recruits completed a selection process to start basic training to become Community Wildlife Protection scouts

Water and Food

100

domestic boreholes maintained to supply water to 5,000 households and their livestock

410 000

school lunches provided to children across 11 schools
