

# IMVELO

## SAFARI LODGES

### *Why Choose Hwange National Park*

- With 14 651 square kilometers\* of wilderness to explore, Hwange National Park is bigger than Serengeti National Park (\* = 5 657 square miles).
- Hwange has about 43 000 visitors per year, a density of three people per km<sup>2</sup> per year. Compare this to Serengeti with 23 people per km<sup>2</sup> per year, Kruger with 85, and Masai Mara with 192. It's possible the only other vehicles you will see on safari will be from the lodge where you are staying!
- Hwange is easy to reach from Victoria Falls by air in a private charter, by road, or by a road and rail combination transfer with Imvelo's Elephant Express railcar.
- Hwange is home to roughly 46 000 elephants, compared with Masai Mara at 3 700, Kruger at 13 750 and Serengeti at 2 100. In the dry season in Hwange it is likely you will see elephants congregating at water points in superherds numbering in the hundreds. There are more elephants than visitors in Hwange in a year!
- Hwange offers exceptional game viewing year round and can compete with the best parks in Africa in diversity of wildlife, with healthy populations of endangered species such as sable antelope, cheetah and African wild dog.
- Hwange's professional guides serve apprenticeships of between five and ten years and their skills are recognised as among the best in Africa. Take a walk with a professional guide, showing you how to approach game on foot for that perfect photo, read animal tracks, and learn the intimacies of the ecosystem around you.
- Your safari lodge or camp in Hwange will be small and personal – eight rooms accommodating 16 guests is a typical size – there's only one hotel with close to 100 beds in the area.
- You're likely to find great value for money by choosing Hwange over Africa's other great national parks – prices are competitive while still providing an outstanding safari experience.
